

astonian flush to floor steel shower trays

In addition to their sleek minimal look, steel shower trays are a versatile and durable alternative to composite stone, available in a huge range of sizes to suit almost any room. At 25mm in depth, our steel shower trays can be fitted surface mounted or flush to floor to create a seamless look. The 90mm shower waste ensures the water is contained.

Depth	25mm
Material	enamelled steel
Finishes	white; colours on request
