

Astonian Signature dual flush plate

Our decorative rectangular dual flush plate made from 3mm solid brass is designed to operate with a number of ranges of wall mounted or back to wall WC installations.

The buttons are designed to be raised instead of recessed allowing them to be much more ergonomic and satisfying to operate.

It works with our Carlton, Venice, Burlington, Guild and Roma ranges, as long as the GTS frame is used, a very versatile product.

Compatible with all Geberit Sigma (GTS) concealed cisterns and Geberit Sigma (GTS) toilet support frames

Finishes Available: Chrome, Polished Nickel, Brushed Nickel, Polished Brass, Brushed Brass
