Astonian Signature

semi-exposed dual outlet exposed shower system

The Astonian Signature shower system creates a stunning focal point in your bathroom. The system can be set up for single, dual or triple outlets. At the heart of the set is the precision-engineered thermostatic valve, offering full temperature control for a consistently comfortable and safe showering experience. The diverter handle can be cross handle or lever handle and the wall outlet and handshower antler can be positioned wherever convenient.

Material - solid brass
Plated finishes - chrome, polished nickel, brushed nickel
Living finishes - polished brass, brushed brass
Pressure - suitable for low and high pressure installations
Diverter - can be crosshead or lever handle
Shower rose - not included
